

Raise the Noise

Helloween

Since ages now we're caught and occupied
With our basic civil rights denied
They came-to-conquer, took our beloved world
We're left to thrive in sorrow and disgrace

Some never knew what freedom was
Now, there's guards everywhere
Someone come!...
Rise up tomorrow to rectify the injustice being done

Raise the noise bring it on
I'll sing it while you're gone
Forever and ever
On with this for as long
There won't be another song now or whenever

But they're flawed, they crave the sound of our melodies
Though exposed to complex things just faint
This way they're rendered helpless easy prey
To be grabbed and bound safely locked away

Aldo here's one guy to play the pipe
Summons mean tunes that kill
Stadium like set up and verified
Knock 'em out with your skill

Raise the noise bring it on
I'll sing it while you're gone
Forever and ever
On with this for as long
There won't be another song now or whenever

Raise the noise bring it on
I'll sing it while you're gone
Now and forever
On with this for as long
There won't be another song now or whenever
