

# Still We Go

Helloween

"In the beginning  
Out of nowhere  
We had a dream  
And now it's  
Helloween"

Speed up to a  
higher limit  
Change gear, we're  
losin' our spirit  
We won't take your  
special advice  
We are close to a  
metal breakdown  
Sirens to warn of  
our meltdown  
We couldn't see that  
headline

Now we can see  
a horizon  
We're gonna be here  
to stay  
If you cannot  
see our sign  
You must be blind

Still we go  
Still we go  
Still we go  
On the metal highway  
Still we go

Warn out, won't die  
on our knees  
Shine on, proud  
as we can be  
Time has come to  
stop pleasing you  
Hey man, let's get  
it together  
Our strenght will  
last forever  
Push us as far  
as we can go

Now we an see  
a horizon  
We're gonna be here  
to stay  
If you cannot  
see our sign  
You must be blind

Still we go  
Still we go  
Still we go

On the metal highway  
Still we go

How many times must  
a man cross the lines

To find his right way  
Still we go  
Still we go  
Still we go  
On the metal highway  
Still we go
