

# Straight Out of Hell

Halloween

Straight out of hell I waste my life not for tomorrow  
Straight out of hell I'm only livin' for today  
I roll the dice I know that something strange is coming  
I'm cold as ice I always take it as it comes

Ain't no eternity, ain't no salvation  
In this damnation we will burn

Straight out of hell, straight out of hell  
There's no tomorrow there is no farewell  
Straight out of hell, straight out of hell

I'm gonna lose it but it feels so well  
I'm straight out of hell

No ace to play I live my life with no protection  
The price I pay my act of grace will be denied  
This road to hell and I won't find no resurrection  
Cause I will sell my dirty soul to rock n' roll

Ain't no eternity, ain't no salvation  
In this damnation we will burn

Straight out of hell, straight out of hell  
There's no tomorrow there is no farewell  
Straight out of hell, straight out of hell  
I'm gonna lose it but it feels so well  
Straight out of hell

So sad and lonely I go down  
No helping hand no soul around  
I lost my faith so long ago  
A million tears are gonna flow

Straight out of hell, straight out of hell  
There's no tomorrow there is no farewell  
Straight out of hell, straight out of hell  
I'm gonna lose it but it feels so well  
Straight out of hell, straight out of hell  
There's no tomorrow there is no farewell  
Straight out of hell, straight out of hell  
I'm gonna lose it but it feels so well  
I'm straight out of hell
