

# Sun 4 the World

Helloween

Forty million years ago  
There was a boy called Leif  
His skin was gray, his eyes were red  
The tentacles counted five

Grown up in a normal house  
His parents beloved son  
There never was the slightest sign  
He'd be the chosen one

Leif  
(No)  
Help us  
(No)  
Shelter us

He turns into the sun 4 the world  
Sun 4 the world  
What would I say  
(What would I say)  
Would it be me, my friend

Down on Earth, we see a star  
Dying in it's light  
Then suddenly it all explodes  
A new sun shines with Leif

Leif  
(No)  
Help us  
(No)  
Shelter us

He turns into the sun 4 the world  
Sun 4 the world  
What would I say  
(What would I say)  
Would it be me

Sun 4 the world  
Sun 4 the world  
What would you do  
(What would you do)  
Would it be you, my friend

Leif, help us  
Shelter us

He turns into the sun 4 the world  
Sun 4 the world  
What would I say  
(What would I say)  
Would it be me

Sun 4 the world  
Sun 4 the world  
What would you do

(What would you do)  
Would it be you, my friend
