

Take Me Home

Halloween

Now I'm here all alone
Takin' care of my own
Down in no man's land
Got no friend, got no dime
Only plenty of time
Where's the saving hand?

I got that feeling to need
More and more attention
That is the fever, don't leave me alone
I got that feeling to make
More than conversation
That is the fever,
Where's my home?

Take me home
Take me home
Take me home

It's not true what you see
Behind that mask that's not me
Try to reach my world
Can't you see I'm so blind
Stay with me to change my mind
No more nightmares, girl

I got that feeling to need more
And more attention
That is the fever, don't leave me alone
I got that feeling to make more
Than conversation
That is the fever, where's my home?

Take me home
Take me home
Take me home

I got that feeling to need more
And more attention
That is the fever, don't leave me alone

I got that feeling to make more
Than conversation
That is the fever,
Where's my home?

Take me home
Take me home
Take me home
