

Call It Like I See It

Hellyeah

Another hard night fraying at the seams,
I took out the stitches
But my scars will always bleed
So dark inside, I'm a hard story to read,
I'll probably never feel better,
But I can always dream

All my life riddled with pain,
You're staring through a hallow man,
Persecution, the retribution,
For whatever it was I did,
To find my pride my will my love,
My self respect has come undone,
Close to losing life by my own hand,
Dig deep inside to find my worth,
To instigate my own rebirth,
At deaths door but there's been a change of plan

Life, death, it's my call
Hopeless, I was taught to be this
Want it, take it, my law
you can call it arrogance but I just call it like I see
it

All my life consumed with hate,
It's the disease my head creates,
Motivation through determination
find happiness that I've displaced
I'm letting go of everything
Of everyone that's in my way,
Of all the things in life that keep me down
Claim the space that's my domain
Scream fuck you all and scrap plate
Past is in the trash, and I am don

Life, death, it's my call
Hopeless, i was taught to be this
Want it, take it, my law
You can call it arrogance but I just call it like I see
it

Life, death, my call
Hardness, I've grown up to be this
Ruin, destroy me, fuck you all
You can call it arrogance but I just call it like I see
it
