

Soul Killer

Hellyeah

Is it the size of the hammer?
Or the size of the nail?
That makes you think you're better
I'll take the wind out of your sails (fist to your jaw)

First thing's first, I go from bad to worse
Let's get that straight, right from the start
Fuck the day, fuck the dark and fuck the place that you came from

Alpha, Omega, you want it, come get it, my finger's on the trigger
Destruction, corruption, complete domination
I am the soul, I am the soul killer

Is it the size of the halo?
Or the span of the wings?
That makes your god bigger, or is that just what you think (my hand to your god)

Right from the jump, I couldn't give a fuck
About who or what you think you are
Black out the day, black out the sun and fuck the place that you came from

Alpha, Omega, you want it, come get it, my finger's on the trigger
Destruction, corruption, complete domination
I am the soul, I want your soul, I am the soul killer

Soul Killer

[solo]

You sound the starting gun and I piss out your sun
I'm here to ruin everything you are
While you're being all you can be, I'll knock you off your feet
and bring the storm that follows me while you're seeing stars

Alpha, Omega, you want it, come get it, my finger's on the trigger
Destruction, corruption, complete domination
I am the soul, I am the soul killer
Alpha, Omega, you want it, come get it, my finger's on the trigger
Destruction, corruption, complete domination
I am the soul, I am the soul killer
