

# Die Alone

Helmet

?  
Now you got that look in your eyes  
baby, take your deep breath

To die alone  
honey, you don't need them  
now you got it

Last to first  
people that are worst  
anything it takes  
? all the pricks

To die alone  
honey, you don't need them  
you're born to death  
and you start believing  
believing  
believing

To die alone  
? everybody  
did you clear your name  
did you take the money  
the money

To die alone  
honey, now you need them  
to die alone  
and you start believing  
believing  
believing
