

Die Alone

Helmet

?
Now you got that look in your eyes
baby, take your deep breath

To die alone
honey, you don't need them
now you got it

Last to first
people that are worst
anything it takes
? all the pricks

To die alone
honey, you don't need them
you're born to death
and you start believing
believing
believing

To die alone
? everybody
did you clear your name
did you take the money
the money

To die alone
honey, now you need them
to die alone
and you start believing
believing
believing
