

Just Another Victim

Helmet

Victimized, but you're in bed
Stumble out and run dead
If it ever paid to self start
Environment, make you smart

Just another victim
Just another victim
Just another victim
Just another victim

Kid, I heard it once, but not before
Begging off and livin' bored
My hands are tied, webbed feet again
Fell in behind and claim us dead

Just another victim
Just another victim
Just another victim

Cast this inspite of truth
Give it up, I'll lie to you
Blame and flame this, turned stat
Pointed finger, you fall apart

Just another victim
Just another victim
Just another victim
Just another victim

You played yourself, now you're pointin' fingers
How I've robbed and raped ya, bruised and scraped ya
But those are just lies 'cause in your eyes
You've been victimized it's how you size it up

You disguise it up and try to make it look real
To cover up the low self esteem you feel
Introspection and after thought
Swimmin' in guilt's your favorite sport

But now you're caught up in the undertow
You never knew a man could sink so low
But now you know 'cause you're John Doe
In a black bag a tag on your toe
I built the house I felt the pain
You're victimized but got no one to blame

Just another victim
You're just another victim, kid
Just another victim
You're just another victim, kid

Holy diver, I'm a survivor
Feeling like Deniro in taxi driver
With Jodi foster and Harvy Keitel
Looks like I'm walkin' through a livin' hell

So spark that owl and I'll get lifted

Feelin' the effects of what my spliff did
'Cause I'm gifted I read sun tzu
I bought a gun too so you'll never come too
The weight of the world ridin' on my shoulders
'Cause I'm a soldier, I thought I told ya

You're just another victim
You're just another victim, kid
You're just another victim
You're just another victim, kid

You're just another victim
You're just another victim, kid
You're just another victim
You're just another victim, kid

Just another victim
Just another victim
Just another victim
Just another victim kid
