

Like I Care

Helmet

I'm paralyzed
Just listening to you
Now I am receptive

I know you sleep
So sound every night
And you are deceptive

It always feels good to be right
And if it helps you sleep at night
I'll tell you what you want to hear
And act like I care

Ooh

It always feels good to be right
And if it helps you sleep at night
I'll tell you what you want to hear
And act like I care

It always feels good to be right
And if it helps you sleep at night
I'll tell you what you want to hear
And act like I care

Act like I care
Act like I care
Act like I care
