Like I Care

Helmet

I'm paralyzed
Just listening to you
Now I am receptive

I know you sleep So sound every night And you are deceptive

It always feels good to be right And if it helps you sleep at night I'll tell you what you want to hear And act like I care

Ooh

It always feels good to be right And if it helps you sleep at night I'll tell you what you want to hear And act like I care

It always feels good to be right And if it helps you sleep at night I'll tell you what you want to hear And act like I care

Act like I care Act like I care Act like I care
