

# Miserable

Helmet

Someone's got it in for me  
He's trying to get to you  
You think he knows what you need  
But not a word he says is true

When it's time to move in  
He is creeping 'round  
You think he respects you  
But he'll just drag you down

I can make you miserable  
I have been that low  
If I can make you miserable  
Just let me know

Someone's got it in for me  
I don't care any more  
I've learned to enjoy the pretty things  
Like settling a score

I can make you miserable  
I have been that low  
If I can make you miserable  
Just let me know

Let me know  
Honey, let me know

Just let me know
