On Your Way Down

You have worked your way up to the top Thought that you would make the whole world stop Up to Venus, Mars and Jupiter Bet your feet don't even touch the Earth

On your way On your way down On your way You're on your way down

Stumbling drunk now with authority You've taken all that you can take from me

On your way On your way down On your way You're on your way down

Are you lying to yourself? There's no right or wrong No heaven and no hell Now you're losing all your friends To surround yourself with All those dull "yes" men

On your way On your way down You're on your way On your way down

You're on your way

Helmet
