

# Throwing Punches

Helmet

Darlin' was a hit  
Started throwing punches  
She connects, never gets what she wants  
And she wants

She's unhinged  
Swears now that was then  
Just a little glitch  
Patch it up again  
And she wants  
And she wants  
And she wants

So far I don't understand this  
There's no misunderstanding  
There's nothing here to get  
She wants more than my attention  
She's not above invention  
But I don't really care

It's unreal, she'll tell you what you wanna hear  
Feel her infection touch you and rot  
And you rot  
And you rot  
And you rot

So far I don't understand this  
There's no misunderstanding  
There's nothing here to get  
She wants more than my attention  
She's not above intention  
But I don't really care

Don't know what you want or how far  
You fall when you're unhinged  
Coming back for more  
I was only horny

So far I don't understand this  
There's no misunderstanding  
There's nothing here to get  
She wants more than my attention  
She's not above invention  
But I don't really care
