

# Alma Negra

Helstar

The poison in their veins flows from my blackened heart  
The life blood that one spill fulfills my darkened soul  
The excitement and the thrills as they tear your world apart  
In calm insanity, murder in complete control

Alma Negra - I am the night stalker  
Alma Negra - and then I am Dahmer  
Alma Negra - I am the son of Sam  
Alma Negra - Yes that's what I am

The voice inside their head again possessed it's time to kill  
Pulsations in their brain they await for my call  
The screaming and the pleas, the best part of the thrill  
Time to take another out so we can watch them fall

The ones I have chosen fulfilled all my sins  
Such laughter when begging for mercy begins  
That look of fear in victims eyes is what I crave  
When they see that look of death that says it's time to go to y  
our grave

I am the genius that lived in their minds  
Day after day more victims you'd find  
I was evil that showed in their eyes  
I stood by them while they silenced your cries

With haste and ecstasy, I've taken dominance  
In my control heartless killing machines  
Addicted to the sight of blood a rush that's so intense  
Never feeling squeamish to the smell of death obscene
