

# Eternal Black

Helstar

I am the bringer of dark dreams  
I am the passage of sorrows  
These are last lips that you'll taste  
I'm the destroyer of your tomorrows

I am the end of time  
The end of the line  
The place of no return  
Eternal black

My presence will fill you with tremors  
In silence I come from the shadow  
I am not demon nor god  
My name is not cursed nor hallowed

I am the end of time  
The end of the line  
The place of no return  
Eternal black

Never diverted  
I cannot be cheated  
I will forever  
Bring you to never

I cannot offer salvation  
Your soul is mine to harvest  
At birth you were condemned  
To walk these corridors of darkness

I am the end of time  
The end of the line  
The place of no return  
Eternal black
