## Heltah Skeltah

Undastand Heltah Skeltah only mean war, undastand  
The war's with everything outside your door, undastand

Heltah Skeltah start stormin'  
Ya, up for dreamin' it's mornin', I'm warnin'  
People who jeal my name ring bells like a doorman  
A warrant, for the arrest of a militant menace

Who serve heads like tennis with words that diminish  
Bust the scrimmage, I call the high post play  
Dish off to the center fo' da quick lay  
Slay, anybody come in my lane

Gets blown out the frame by the Flipster and lames, look  
Who is this gettin' swift with this pugilist  
Equipped with the lyrical gift to flip scripts  
People duck sick what? Don't wanna touch with that ruff

That Ruck kick, break boys bones like Roy Jones  
Decoys roam, but they can't mess with my people  
Hey you stepped to the Ruckus recognize that I be lethal  
My gats spits at wack niggaz blacks get, tactics  
Make it hard for any infiltrator to attack this

Undastand Heltah Skeltah only mean war, undastand

Sparsky and Dutch, Ruck and, Rock see

Watch the red dot, move a muscle boy you bed' not

See the last two figures they can't describe me  
Military Punisher Rock M P  
Watch, the, nine millimeter brain better  
You won't be beefin' and your heart won't be beatin' either

Either you're real or I hate you I break you  
Like glass shatters the bullet brings it to dat ass

Undastand in the midst of utter confusion I got sumpin' for stars  
Frontin' in cars and bars when I lace you with my gym star  
Recognize real never the rap that's rungy  
But my pow make yo' shit snap like bungee

Once we, unite, like I'm Martin Luther  
I'm startin to shoot the people messin' wit my future  
So who's the, wiggly that wanna test me and address me  
Just to try an impress me them people come and stress me

Undastand, to be the man ain't even the plan  
But stand in my way and get crushed under sand  
So guard your backs or matter fact guard your naps on  
Down 'til we you, click your heels times and, ahh

I'm at the door bringin' war to your town  
It's the Rock, now you gotta get away like Bobby Brown  
I get down, punk gets pounded like fractions  
Worlds get blown when Ruck and Rock start overreactin'
