

All That I'm Good For

Hem

Leave my station where I stood
To lay for a while with you
I got shadows snapping at my tail
Who say I'm no damn good
But that's just halfway through
All that I'm good for is you

You know I play with all those strays
Prowling outside your door
It's the scraps of love you throw my way
That have got me on all fours, I think it's for you
All that I'm good for is you, all that I'm good for is you

And I'll leave it behind
To lay down with you
I'll stop running wild
Doing what I used to do

My whole wide world is out of hand
So crooked it leaves me cryin'
But your love is straight and narrow
And it's keeping me in line
This love will see me through
All that I'm good for is you
All that I'm good for is you

All I'll leave it behind
To lay down with you
I'll stop running wild
Doing what I used to do
All that I'm good for is you, is you, is you
All that I'm good for is you
