

## Idle (the Rabbit Song)

Hem

Broken moon in the sky  
Enough to pull up our eyes  
From the ground where we hide  
From the ground where we hide

Gonna waste some time with you  
And let this world go  
Keep my heart idle  
Gonna waste my time with you  
And let this love go  
A broken heart, idle

Restless stars through the trees  
Enough to fall to our knees  
Make no sound so no one sees  
Make no sound so no one sees

Gonna waste some time with you  
And let this world go  
Keep my heart idle  
Gonna waste my time with you  
And let this love go  
A restless heart, idle
