The Fire Thief

Hem

Wouldn't be the first time Love made a fool of me Wouldn't even care But now you're here to see

It comes as no surprise Just leave the light on

What I wouldn't give
If you could have it all
The sun that's going down
The bed that breaks the fall

The cradle and the bow So you can take comfort now You can take comfort now

Sometimes a heart can break And make it's own relief The way a cold dark night Invites the fire thief

He wants to show us how
So we can take comfort now
We can take comfort now
We can take comfort now

Leave the light on
