

Same Song Sing Along

Her Space Holiday

People keep confusing things
Just pick up a magazine
From the billboard adds to the TV Screen
You shake your head and say that's not me
On and on and on and on
Let them push that one note song
You don't have to sing along
Your inside beauty is coming out strong

I don't have to sing along
You don't have to sing along
We don't have to sing along
We don't have to sing at all

On and on and on and on
Let them push that one note song
You don't have to sing along
Your inside beauty is coming out strong

I don't have to sing along
You don't have to sing along
We don't have to sing along
We don't have to sing at all

On and on and on and on
Let them push that one note song
You don't have to sing along
Your inside beauty is coming out strong

I don't have to sing along
You don't have to sing along
We don't have to sing along
We don't have to sing at all
