

## Same Song Sing Along

Her Space Holiday

People keep confusing things  
Just pick up a magazine  
From the billboard adds to the TV Screen  
You shake your head and say that's not me  
On and on and on and on  
Let them push that one note song  
You don't have to sing along  
Your inside beauty is coming out strong

I don't have to sing along  
You don't have to sing along  
We don't have to sing along  
We don't have to sing at all

On and on and on and on  
Let them push that one note song  
You don't have to sing along  
Your inside beauty is coming out strong

I don't have to sing along  
You don't have to sing along  
We don't have to sing along  
We don't have to sing at all

On and on and on and on  
Let them push that one note song  
You don't have to sing along  
Your inside beauty is coming out strong

I don't have to sing along  
You don't have to sing along  
We don't have to sing along  
We don't have to sing at all
