### Here Comes the Kraken

Wont do this again  
Now you realize that  
That you killed it  
Regret ... Not to do it  
You will see i can do better  
And feel the pain  
I`ll laugh again  
Cause you betrayer are going down  
In the end you are going down  
I lost my paciense  
I found my chainsaw  
No fate, i need to let you behind  
Break in your place  
What you know?  
I know i gonna fuck you  
I didnt mean it  
Lets bring it!  
Feel... You look good without your arms  
Useless trying to run  
Your feet was separated  
Its time to know how you are inside  
Now look what you did  
Fuck i got to clean this mess  
This guts are so greassy, ribs teeth, feet  
Every where like a puzzle  
I painted this room red  
Good bye whore  
Whore!
