

Never Regret

Here Comes the Kraken

Don't regret what you did
As this light approaches
With a thousand eyes on me
I want all sir
I will bring dead to all those who glorify
what we came to crush
The rising abyss of possessed and damned
I will bring now your life to this circle of death
I will bring dead to those who glorify
What we came to crush

Hate greed and death
This is my prophecy
Hate greed and death
My prophecy

I'm never going to regret
I promise I will never fail

This is the end
My soul is condemned, condemned like you all
Eternal whispers of entire legion

Hate greed and hate, hate greed and death
This is my prophecy
Hate breed and death, this is my prophecy
Hate greed and death, my prophecy

I'm never going to regret
I promise I will never fail
I know I will never, I know I will never regret
Condemned you all, you all
I'm never going to regret
I promise I will never fail
I know I will never, I know I will never regret
Condemned you all

You burn in my mind begging me
You breed my hate begging me
When you see what I have become
Promises will keep you away from me
Cause I know that you have pray for
You better pray for this shit you have become

Hate greed and death
This is my prophecy
Hate greed and death
This is my prophecy
Hate greed and death
This is my prophecy
Hate greed and death

The demons are going to eat you alive
The demons will turn you evil
The demons are going to eat you alive
The demons will turn you evil
