

Tell The World Goodbye

Here I Come Falling

Tell the world goodbye
Douses my heart for the first time
Last time I slipped away
Before you bled down on me
You may never see how I feel inside
The wind blows
Takes me away
For the last time
... the last time...

Down below these stars tonight
The world came crashing down (world came crashin)
Fire set the sky ablaze
As the stars begin to shine again

Gates and arms are open again
Voice like a razorblade
Cuts through the surface
Bleeds my heart away
Bleeds my heart away (bleeds my heart away)

Down below these stars tonight
The world came crashing down (world came crashin)
Fire set the sky ablaze
As the stars begin to shine again

Tell the world goodbye (tell the world goodbye)
(I'm comin home)
I'm comin home
Tell the world goodbye (tell the world goodbye)
(I'm comin home)
I'm comin home
Tell the world goodbye
I'm comin home
(I'm comin home)

Down below these stars tonight
The world came crashing down (world came crashin)
Fire set the sky ablaze
As the stars begin to shine again
