

# Little Girls Understand

Herman Brood

I've seen times  
Where I didn't feel like  
Face another day  
Jumpin' off the highest roof  
Lay my head on a rail  
Sssplashin' on the sidewalk  
Creatin' more blood  
Than a tomato could  
You know takin' a dry dive  
From the highest roof  
In the neighbourhood  
Future styles  
Froen smiles  
I feel so goddamn all alone  
Hometown is now a ghosttown  
I don't wanna go home

The little girls understand  
Understand it all / just know

They had me on my knees  
In the doctors' room  
He understands my problem  
But the twinkle in his eyes  
Is like a spark of doom

I've seen times  
Where I didn't feel like  
Face another day  
Jumpin' off the highest roof  
Lay my head on a rail

The little girls understand  
Don't need no doctor  
Never too slow  
Understand it all  
Just know

Most girls that I see in the mornin'  
Hide out under the table  
Most girls I see when I wake up  
Sneak out as soon as they're able

The little girls understand  
Understand it all  
Just know  
Ain't got no problems  
Understand it all  
Just know  
The little girls understand  
They just don't show
