

# Rock & Roll Junkie

Herman Brood

You blew my deal  
Left me out at heels  
Gave me lies for candy  
Sucked my juice, ate my brain  
Gave me fake for understanding  
Rock & Roll addiction is a festerin' habit  
You gotta keep on playin' like a paranoid rabbit  
You can hook me on y'r tail, penetrate my soul  
Made me feel the sting of Rock & Roll

I'm a heart & soul, Rock & Roll,  
Heart & soul Rock & Roll junkie (2x)

Forget about y'r poetry & y'r old jive culture  
You better crack it up before it's too far gone  
Go by y'r instinct, get down to the real thing  
She's no lie, never leads you wrong  
I've seen the macrodynamics, & the psychedelic trash symphonic  
Nellies, pretending high class  
I've seen those funky assed turkeys  
On their big platform discoshoes  
The new wave hype & the old jive juice

I'm a heart & soul, Rock & Roll,  
Heart & soul Rock & Roll junkie (2x)

It's magic, fantastic, plastic fireball  
Makes you strung out for life  
Makes you stumble & fall  
They're gonna call you names you never heard before  
They got you comin' down on music you adore  
But when I do my suicide for you  
I hope you miss me too  
But when I do my suicide for you  
I hope you miss me too

I'm a heart & soul, Rock & Roll,  
Heart & soul Rock & Roll junkie (4x)
