

Busy Line

Herman's Hermits

I hear You say anytime at all
I hear You say any time you call, I'll be there
You made me feel so happy
I'll pick You up, don't let me down

You've been seen with someone else in town
Could this mean You're playing me around all the time
I call You up - no answer
But You're at home - I see the light

I can see, You're slipping away from me
Don't You see, I want You to stay and love me
You're above me

Dial your number - never can get through
Outside phone booth people in a queue in the rain
They're banging on the window
I got to try once more tonight

I can see, You're slipping away from me
Don't You see, I want You to stay and love me
You're above me
