Listen People

Herman's Hermits

Listen people to what I say I say everybody's got to have their day

And don't you know that Everybody's got to love somebody sometime Everybody's got to win a heart Everybody's got to love somebody sometime When you do, I hope you never part

I once found love, found love just like you But then he came, he might come to you

And don't you know that Everybody's got to lose somebody sometime But everybody can part Everybody's got to lose somebody sometime So take care that you don't lose your heart

Take my advice and you'll always find You'll be happy all of the time Take my advice and you will see You'll be happy as you can be

Listen people to what I say I say everybody's got to have their day

And don't you know that Everybody's got to love somebody sometime Everybody's got to win a heart Everybody's got to love somebody sometime When you do, I hope you never part You never part Listen people Listen people
