

Everytime You Touch Me

Hermes House Band

More than I could imagine you give me
Like the ocean so wild and clear you inspire me
More than usual passion you thrill me
I don't think there's no better time to live in
With you right here Every time that you touch me
I'm spinning round and round
Every time that you smile at me
My heart turns upside down
And sometimes I hardly can breath
Stay with me Like the sunshine in April you're smiling
Mile the warm like the summer breeze my daydream
More than I could desire you give me
And I don't think there's no better time to live in
With you right here Every time that you touch me
I'm spinning round and round
Every time that you smile at me
My heart turns upside down
And sometimes I hardly can breath
Stay with me Every time that you touch me
I'm spinning round and round
Every time that you smile at me
My heart turns upside down
And sometimes I hardly can breath
Just for me So easy to breath that's how I feel (every time tha
t you smile at me)With you by my side
And more and more that I could feel (every time you're touching
me) Every time that you touch me
I'm spinning round and round
Every time that you smile at me
My heart turns upside down
And sometimes I'm getting weak in my knees
Stay with me
