

I Bring You Fear

Hermh

I ll bring you fear
But fear not
You ll get wisdom
You ll get freedom
I bring you fear
I take away life
I bring you fear
Another existence
You ll get wisdom
You ll get freedom
I bring you fear
You ll get freedom

Spit out the pain of existence
Reveal thy name
Repeat the truth
Not lies
Repeat the truth
Bite your tongue
I come out of the sea
Bringing next truth
Another horn rambles
Yet another cock in the morning
And freedom by my side
I bring you fear
And rapture within
I bring you fear

Allow me to speak thy name
It will be a seal of salvation

I ll bring you fear
But fear not
I bring you fear
I take away life
I bring you fear
Another existence

Dawn is close
The sun approaches
Heat of sand on my face
Freedom won
