

Apocalypse Child

Herrschaft

I am watching now the human parade
And I can live forever
They're all dancing on the sweet melody
And they're all lost forever

I am watching what progress has done
Desolation's fucking coming now
I am watching what humans have become
Hell in fucking Paradise

I live in this world and I pray
All the things I can see today
I live in this world and I say
Are falling down, here is decay
I live in this world and I pray
All the things I can see today
I live in this world and I say
Are falling down, here is decay

You're looking all around you
Human parade deserves to die
You're looking all around you
I am apocalypse child

I'm leaving this world and I pray
I'm walking on in the valley
I'm leaving this world on my way
Can see the sky fading to grey
I'm leaving this world and I pray
I'm walking on in the valley
I'm leaving this world on my way
Can see the sky fading to grey

You're looking all around you
Human parade deserves to die
You're looking all around you
I am apocalypse child
