

The Defenders

Herrschaft

Armed to defend lands, values and rights !

This is our new way of communion
Volunteers called to protect our land
A nation focused on human production
Sacrificed lives to save our kingdom

Armed to defend lands, values and rights !

There is no escape to avoid our fate
Marionettes made of flesh and blood
That the Grand Architects all manipulate
The human race a stronger army

In the last centuries populations raised up their eyes to the sky
They hoped that the Almighty could give them the power to survive
From aggressions, extermination, disease but they only knew wars
We are those to defend human race, we are the Grand Architects

Armed to defend lands, values and rights !

Unstoppable industry creating warriors
We are the links unbreakable chain
We raised our heads devoted to our cause
An iron skin we're the Defenders
