

# The Grand Architects

## Herrschaft

We are on a long way to perfection  
Rising from the ashes of an old world  
Building the symbols of domination  
A kingdom that you will never destroy

You're all watching with sparkling eyes  
You're kneeling down by submission  
Admiration till overdose  
We're building the world we had always dreamed of

Re-construction of a place  
Becoming the symbol of the race  
We will no longer know the fear of dying  
Protected by the Grand Architects  
Transformation of the space  
Here there is no more place to death  
We are the fathers of the new beginning  
Imposing values and respect

You're all watching - sacred art  
You're kneeling down - submission  
Admiration - 'till overdose  
We're building the world we had always dreamed of

From the cold ruins of humanity  
We are erecting an iron throne  
Metamorphosis - Transfiguration  
A civilization raised by strength

You're watching us with sparkling eyes  
We're arising from your old memories  
We are the masters of your salvation  
Here is your hope - we are evolution

We're on our long way to perfection  
Rising from the ashes of the past  
Building the symbols of the highlight  
Of a kingdom you will never destroy

We're on our long way to perfection  
Rising from the ashes of the past  
Building the symbols of the highlight  
Of a kingdom you will never destroy
