

## As Far As The Eye Can See

Hevein

As far as I can see  
You're climbing walls of dependency  
Disillusioned and full hypocrisy  
Imagine a state of great suffering  
Due to adversity  
Now just memory

Say you need me, you don't answer  
When you were needed, to kill this cancer  
The change was needed, love changing everything  
As far as the eye can see

Elation as certain as the ride  
Poor little creatures still fighting for their last slice of pie  
On their knees chanting; second is first last  
You got to see beyond the spec of time your on this earth to get  
a better...  
To get a better glance

Say you need me, you don't answer  
When you were needed, to kill this cancer  
The change was needed, love changing everything  
As far as eye can see

As far as eye can see
