

# Hell Riders

Hexx

Taking the city  
On an iron horse they ride  
The evil is coming to take you away  
When you hear the thunder  
Exploding down the streets  
You know it's time to run and hide

Close the gates  
Don't you let 'em in  
Hell Riders of Sin

Demons in leather  
They're out to rule the world  
On a stormy night they ride the wind  
When lightening strikes  
You know they're getting near  
Step aside, look out they're coming in
