

## The Hexx

Hexx

Welcome to her castle  
The tormenting will now begin  
Allured with charm yet bewildered  
Enticed by the beauty within

She put a Hexx on you

One look into her crystal ball  
The past, the present revealed  
Awaiting your fate, the future  
Excruciating pain you feel

She put a Hexx on you

She cast a spell on you  
One that will never go away  
Your foolish fascination  
Trapped in a spider's web forever
