

## You Will Do For Now

Hey Marseilles

I will lead you if you will follow me  
To graveled gray roads, Shakespearean scenes  
If only you knew the love of degree  
You'd slow that beating heart down  
You will do for now

The December dark will keep me in the room  
Soft ashtray eyes will beg to be found  
I'm keeping these walls from speaking too soon  
Count your love one in the crowd  
You will do for now

I swear these lies won't stay long  
The halos and hubris are gone  
Shadow your right with my wrong  
Once these sheets are gone

I will lead you if you will follow me  
To graveled gray roads, cigarette scenes  
Regret won't keep the sun from the sea  
Soon I'll be leaving this town  
You will do for now
