

# Hurricane Streets

Hey Monday

The storm is rushing on me  
Here's the blinded flash  
I feel so locked and loaded  
Let me out, let me out

I wake up in a wasteland  
Where the trees are crashing fast  
Make or break or the road explodes  
Get out, get out of this town

Live faster  
Love stronger  
Let us speed up  
Or get blown over  
Time's wasting  
How much longer  
Before I get myself free  
On these hurricane streets

Headed for disaster  
Way beyond the fear  
In the rear view  
Watch it all just disappear  
Disappear

I don't care where I'm heading  
Anywhere but here  
Won't waste my life  
Can't waste another night  
In this town, this town

Live faster  
Love stronger  
Let us speed up  
Or get blown over  
Time's wasting  
How much longer  
Before I get myself free  
On these hurricane...

Leaves are blowing down the streets  
Wind crawling up our knees  
Somebody get the keys  
Rain is flowing from the sky  
But no fear in our eyes  
We're ready to fly

Live faster  
Love stronger  
Let us speed up  
Or get blown over  
Time's wasting  
How much longer  
Before I get myself free  
On these hurricane streets
