I Don't Wanna Dance

Hey Monday

Take me home

You, you hit with me a break And now you're back for more Your song's the same Leave me with all the blame I don't have time for another game

I don't wanna dance So don't you ask me, babe I don't wanna dance You blew your chance To rock my night away I want some fun Boy, you're so not the one I don't wanna dance So let it go You'll never take me home Take me home Take me home

Talk to me without a sound 'Cause you were such a tool Who's sorry now? You, you're shaking on the floor Watch me walking out the door

I don't wanna dance So don't you ask me, babe I don't wanna dance You blew your chance To rock my night away I want some fun Boy, you're so not the one I don't wanna dance So let it go You'll never take me home Take me home Take me home

Don't tell the DJ to hit rewind Tonight, there's no you and me Don't play that record Don't waste your time

You, you threw it all away

I don't wanna dance So don't you ask me, babe I don't wanna dance You blew your chance To rock my night away I want some fun Boy, you're so not the one I don't wanna dance So let it go You'll never take me home Take me home Take me home I won't dance Bust a move or clap my hands Take me home (Take me home)
