

## Raw. Real

Hey Violet

Cage it up, let it free  
This is you, this is me  
When it ends, we begin  
Say a prayer as we sin

Follow rules or rebel  
Keeps secrets, live to tell  
Once a false, but it's true  
Where's the line, me and you

Make it right, can't you see  
Let's unite, victory  
Make it right, instantly  
Let's unite, victory

This is life, this is death  
This is right, this is breath  
This is true, how I feel  
This is raw, this is real

This is back, this is front  
This is black, this is white  
This is bad, this is want  
These are tears I won't cry

This is in, this is out  
This is up, this is down  
Make it right, give it more  
Let's unite with this chord

This is life, this is death  
This is right, this is breath  
This is true, how I feel  
This is raw, this is real

Don't take what you need  
Leave me here just to bleed  
I can break just like you  
I can cut, I can bruise  
This is raw  
This is real

Make it right, can't you see  
Let's unite, victory  
Make it right, instantly  
Let's unite, victory

This is life, this is death  
This is right, this is breath  
This is true, how I feel  
This is raw, this is real
