

Delusions

Hey

It's stuffy here
But my window is closed
I'm drinking wine
And I'm scared to the bones
Woman in white dress
Stands outside
I know so good her name
Things went dark
Right before my eyes
I hear She's coming

Hello my dear
My name is dead
Don't be afraid
Would you mind if I smoke
You've got five minutes
To pack your clothes
Then we are leaving
You have a right
To make one phone
But then we are leaving
Hello! Can You help me!
