

Nonsense

Hey

You don't have to go on
It's not a music it's noise
But we will never stop play it for you

Because we like it
Because we need it
Because we like it
Because we need it

You don't have to love
My voice my hair or my clothes
I'll never change it for You
I'll be the same

Because I like it
Because I need it
Because I like it
Because I need it
