

# I Feel No Bliss

Hibria

I dream about how my days of bliss  
Surrounded me freely now it's a time of fear  
All Days and nights run so much faster  
All the tears are closer to an end  
A new season

I feel no bliss  
I've dreamt about my death  
No more whispers - Don't you tell me what to do

I look around and something is missing  
My fear makes me blind just voices I hear  
Blaming thoughts speak so louder  
All the pain is closer to an end  
A new season

One last time - I will dream about your love  
Lonely - I will close my eyes for so long  
One last time - I will dream a shining life  
Free - I will fly away

All days and nights run so much faster  
Blaming thoughts speak so louder
