I cant help you
if you dont want me to
cause you wont change
unless you want to
but I wont stay
with you like this
whats happened to my friend
wheres the one I miss
now the drugs take over
my stay is over
when you come down
I wont be around.....
your up and down
your world has turned around
and now I feel like
I'm sick on a Ferris Wheel with you
I turned around
now your on the ground
I cant deal on this Ferris Wheel
Should I worry about it
or should I just I let you go
I feel like its my fault
but I really dont know.....
but I cant stay
in a world like this
whats happened to my friend?
where's the one I miss?
let me off this Ferris Wheel
