

Love Is All

High Highs

When there was a kindness
There was a way

Will a breeze carry you on?

Soft in the air
You fight it
Fight it to help

Drink it all
Let it fill you

On a breeze
You say to me
"Love is all that you need"

It came and went
It left you, left you a wreck

Strawberries
Litter the floor

In time gone by
You'll open up
Open up wide

And let me breathe
Let me breathe easy

On a breeze
You say to me
"Love is all that you need"

I'm falling out
Of the same dream
