

## My Soldier

Highasakite

My soldier, beloved  
when we fall off the earth  
Your wrinkles, your sweet neck  
and we slip off the earth

All night the sound will come back again  
All night the sound will come back again

My poor heart, my soldier  
when we slip off the earth  
Beloved, your sweet neck  
and we fall off the earth

All night the sound will come back again  
All night the sound will come back again

My soldier, beloved  
when we fall off the earth  
your wrinkles, your sweet neck  
and we slip off the earth

All night the sound will come back again  
All night the sound will come back again
