My Soldier

Highasakite

My soldier, beloved when we fall off the earth Your wrinkles, your sweet neck and we slip off the earth

All night the sound will come back again All night the sound will come back again

My poor heart, my soldier when we slip off the earth Beloved, your sweet neck and we fall off the earth

All night the sound will come back again All night the sound will come back again

My soldier, beloved when we fall off the earth your wrinkles, your sweet neck and we slip off the earth

All night the sound will come back again All night the sound will come back again
