

## Edge Of Time

### Highland Glory

I still hear the sounds of madness  
Screaming in my brain  
Empty thoughts of yesterday  
Fills my heath with pain

Sitting in my car tonight  
With my hands over my head  
Thinking of that life that I never had

Come to me, give me some piece of your magic  
Show me the way to your life  
Memories of past time still rings inside my head  
Please show me, show me the way

Can you take me to the edge of time  
Free me from this holy lie  
Making all of the bad things right  
On the edge

Can you take me to the edge of time  
Future past, our life rewind  
To be free and live your life in peace  
On the edge of time

I close the door behind me  
And try to not look back  
Shadows making fun of me  
I tell ya, how sick is that?

My mind still plays tricks on me  
The voices in my head  
Repeating me, screaming to me  
Laughing in my head
